---

No. the consumption of alcohol during play is not permitted. We also strongly advise you to limit the consumption of alcohol the night before you play. We reserve the right to refuse to let intoxicated persons play. They are a danger to themselves and other players. We do allow you to bring some refreshments for after the game but please limit this as we close the field after all games are completed and when we have finished cleaning our equipment we lock the field. Arrangements for this must be made with our staff prior to the day.
